

LymphocyteCount.org Absolute lymphocyte count • ALC

"What is my absolute lymphocyte count?"

<200 gr 4	200—500 grade 3	500—800 grade 2	800—1,000 grade 1	1,000—4,800 normal • cells/μL (1.0—4.8 K)
--------------	--------------------	--------------------	----------------------	--

Where CBC with differential → "Lymphocytes, absolute"

Mine baseline _____ latest _____ date _____

Already on every routine blood panel

Not medical advice

Questions for my oncologist

1. What is my absolute lymphocyte count? Is it below 1,000?
2. Was it normal before treatment? Please note my baseline.
3. Will my chemo or radiation lower it? Can we limit that?
4. Does my count affect how well immunotherapy works?
5. How often will we recheck it during and after treatment?
6. If it is low, do I need extra infection precautions?
7. Am I eligible for the Anktiva expanded-access program or a trial that restores lymphocytes?
